

Digital Photography Group – Christmas Challenge

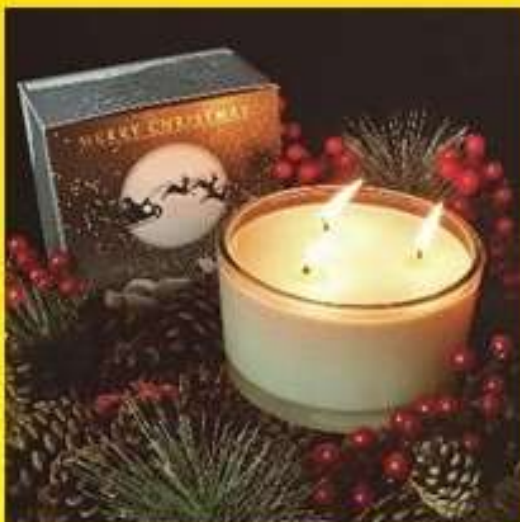

I have set you 3 routine challenges to try in December, all associated with Christmas !

Challenge 1 – Candles

Please take 2 photos, in colour or B&W, of a candle or candles. Real ones, or electric “LED” ones are allowed.

Please be careful of the flame !

Remember to check your focus, exposure and your white balance – candle flames should have a yellow-orange appearance.

Please return your photos to Graham by Saturday 11th January 2026

Challenge 2 - Socks or Stockings

Please take 1 or 2 photos, in colour or B&W, of socks or stockings. These can be anything from a wacky Christmas pair you were given, or traditional ones hanging up at the fire.

You can even try a self-timer image of your own leg (or someone else's !)

Again check your focus, exposure and your white balance, especially if trying the self-timer option !

Challenge 3 - Christmas Tree Decorations

Please take 1 or 2 photos, in colour or B&W, of decorations which you put on a Christmas tree. You can either do a macro close-up of the decoration, a view of part of the tree, or even the whole tree.

Once again, this is likely to be indoors, so double check that white balance !
