

Lowestoft Maritime Museum 5th Aug 26

Challenges

Category	Description
Texture Challenge : Knots, Ropes & Rigging	Find intricate rope work, canvas, or rigging on ship models and artifacts. Hints : Fill the frame with repeating patterns, frayed edges, or heavy weaves. Experiment with a shallow depth of field to draw attention to a single knot or fibre.
Contrast Challenge : Weathered Wood & Polished Brass –	Capture the contrast between rough, aged materials and gleam. Hint : Look for reflections on glass display cases, polished brass gauges, or varnish on model hulls juxtaposed against rough wooden planks or rusted ironwork.
Framing Challenge	Use museum architecture, portholes, or cabinet edges as natural frames. Hint : Shoot through a porthole, display window, or wheel to frame an object, or detail, further in the background.
