

This Week's Photography Challenge

Layering

Adding Depth, Story and Atmosphere to Your Images

Today’s Challenges can be achieved anywhere

Challenge 1 - Natural Frames
Use a gate, archway, hedge or branch.
Challenge 2 - Look Through Something
Photograph through leaves, railings or windows.
Challenge 3 - Backgrounds Tell Stories
Make the background support the subject.
Challenge 4 - Add Scale
Include a person, bicycle or familiar object.
Challenge 5 - Move Your Feet
Take the same photograph from three positions.

Remember
Before changing camera settings, try moving your feet.
Many great layered photographs are created by changing position rather than changing equipment.
Happy photographing! 📷
